Dear Mr. James:

Re: Notice of Intention to Commence Small Mining Operations,(NOI), Charlene Project, Davis County, Utah

Thank you for your NOI received by the Division of Oil, Gas and Mining on July 14, 1993, for mining activities to be conducted on the NW/4 and SW/4 of Section 32, Township 5 North, Range 1 East, SLBM.

The NOI describes the proposed work as being hand labor only with no mechanized activities. The Division does not require a NOI for this type of non-mechanized mining activity. However, you will need to contact the owners of the surface and mineral rights for permission to conduct any activities on their land. From the NOI it appears that you have already obtained a lease (ML46013) from State Lands and Forestry as owners of the mineral rights. You will also need to contact the Ogden Ranger District of the U.S. Forest Service if you have not already done so.

Because the Division does not require a NOI for your proposed activities we are returning your original NOI form with this letter. Thank you for your pro-active mine permitting. Please contact me if you have any questions regarding this letter.

Sincerely,

Anthony A. Gallegos
Reclamation Engineer
